Experience

treemarks.ai — **Stanford**
Intern Software Engineer — **Jul 2026 - Present**

- Currently developing a streamlined, configurable AI shell for TA workflows by adapting an existing Claude-based grading agent and implementing core features for practical deployment.

The American Prospect — **Santa Cruz**
Intern Contributor, Tech Beat — **Dec 2025 - May 2026**

- Technical research, writing, fact-checking, and data entry related to emerging AI technologies.
- Assigned to TAP's tech beat; wrote an article on the plight of young people seeking AI-usurped entry-level jobs

Paystand — **Santa Cruz**
Content Analytics Intern — **Jun 2024 – Jan 2025**

- Managed social presence (TikTok, YouTube, Twitter) and tracked viewer engagement metrics, reporting growth insights directly to the CEO's office.
- Analyzed platform performance data in Google Sheets/Excel to inform marketing strategies.

Additional Experience

Project: SpotiLytics — **Mountain View**
Data Engineer — **Jun 2026 – Present**

- Joint statistics modeling project by Alexander Dao and Jack Rudy. The goal is to understand whether we can predict what songs Spotify users listen to on a given day of the week.
- Currently in development; built on a Python (Flask + SpotiPy) back end with a static GitHub page + vanilla JS to handle API handshakes. We will use various classifier models to analyze previous user listening behavior.
